Summary

Enthusiastic Computer Science graduate with hands-on experience in web development and software projects. Skilled in Java, HTML, CSS, JavaScript. Passionate about building efficient and user-friendly applications. Effective communicator with experience working on collaborative projects. Passionate about applying knowledge to solve real-world problems and grow professionally.

Education

Galgotias University
Bachelor in Technology; CGPA: **9.38**

Greater Noida, India
August 2022 - July 2026

Skills

Web Development: Html, Css, Node.js, Rest APIs, jQuery
Language: Java, JavaScript, SQL
Tools/Frameworks: BootStrap, Tailwind CSS, Github
Database: MySQL

Projects

Online Garbage Reporting System | [Link](#)
[HTML, CSS, Javascript, FireBase]
Nov-2024 – Jan-2025

- Developed a web app where users can report garbage issues by submitting **text and image-based complaints**.
- Implemented user login and registration using **Firebase Authentication**.
- Created separate **user and admin views** to manage and track complaint updates.
- Improved user experience by **handling form submissions** with JavaScript, avoiding full page reloads.

NEWS-API Web App | [Link](#)
[Node.js, Rest-API, News-API]
April-2025

- Built a web app that fetches and displays **20+ news articles** daily from various categories using the **NewsAPI.org** service.
- Used **Node** to create a lightweight server handling **different routes** for different news categories
- Run on **localhost:8080**, simulating production environment for seamless user experience.

Sorting Visualizer | [Link](#)
[Html, Css, JavaScript]
June-2025

- Developed an interactive Sorting Visualizer using **JavaScript** to demonstrate multiple sorting algorithms with real-time animations.
- Implemented **color-coded and dynamic bar** height adjustments to visually represent the sorting process and element swaps.
- Enhanced learning** and user engagement by providing a step-by-step visualization of algorithm behavior.

Achivements & Certificates

Web Full Stack Developer Internship | [LINK](#)
OCT – DEC 2024

- Learned to create responsive web pages using **Html, Css, and Bootstrap**.
- Gained hands-on experience in writing JavaScript for interactivity and using **Node.js** for server-side logic.
- Built mini-projects to understand the structure of full stack applications.
- Completed a virtual internship focused on **front-end and back-end** web development basics

Extracurricular

- Runner-up at Smart India Hackathon (SIH) 2024
- Explore tech as a bridge between innovation and human well-being.
